DETAILED ACTION

Election/Restrictions

1. Newly amended claims 19-41 -- previously withdrawn by Examiner from further consideration pursuant to 37 CFR 1.142(b) -- have not been examined on merits because such claims are drawn to a nonelected Invention or Species, there being no allowable generic or linking claim.

The claims remain withdrawn because the inventions directed to "product" are still distinct from the inventions directed to "process of use", and therefore considered to be restrictable. Applicant is reminded that the inventions are considered to be distinct if either (i) the process for using the product as claimed can be practiced with another materially different product, or (ii) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)).

The requirement is still deemed proper and is therefore made FINAL. Applicant is requested to note that failure to cancel/withdraw claims 19-41 in Applicant's next response may result in a new restriction being issued by the Office.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-8 and 11-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 3617

In claim 1, use of the limitation “**A vessel for transporting wind turbines, and at least one wind turbine base**” makes the claim indefinite. The phrasing of the claims makes it unclear if the Applicant is claiming “*A vessel, the vessel for transporting wind turbines as well as at least one wind turbine base*”, or if the Applicant intends to claim “*A combination of a vessel and at least one wind turbine base, the vessel for transporting wind turbines*”.

Allowable Subject Matter

4. Claims 9, 10 and 42-47 are allowed.
5. Claims 1-8 and 11-18 will be favorably considered for allowance if the claims are amended to clearly recite a combination of the vessel with a wind turbine base.

Response to Arguments

6. Applicant's arguments with respect to claims 1-8 and 11-18 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period

Art Unit: 3617

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
